

**Albedo****Sensible heat****Latent heat**

**Supplementary Figure 2** Changes in surface albedo (a, d, g, j), sensible heat (b, e, h, k), and latent heat (c, f, i, l) in the annual mean (a, b, c), winter (d, e, f), spring (g, h, i), and summer (j, k, l) in the experiment “LC2015 - LC1992”. Units of sensible and latent heat are  $W m^{-2}$ .
